Percentage : 89.8%

WORK EXPERIENCE

Competitive Programming Internship cum Certification   **June 2023-July 2023**
Program from CodeChef

- Collaborated with fellow interns and mentors to develop efficient and optimized solutions.
- Strengthened the concepts of DSA and participated in rigorous and immersive weekly contests.

PROJECTS

News Dose | News Website
Tech Stack Used : *ReactJS, React Router, Tailwind CSS, News API, Open Weather API*

- Developed a user-friendly news website using ReactJS which delivers real-time updates from reliable sources.
- Developed a visually appealing front-end entirely using Tailwind CSS.
- Provided news category options and also integrated Weather API to display user location based weather details.

Moviefy | Movie & TV Show Discovery Platform
Tech Stack Used : *ReactJS, Redux, TailwindCSS, React Router, TMDB API, SCSS*

- Moviefy is a website built with ReactJS and TailwindCSS that serves as a platform for exploring movies and TV shows
- It aims to provide users with access to the latest, trending, and category-wise media content, along with detailed descriptions for each movie or TV show.

Weatherly App | Weather App
Technologies Used : *Flutter(Dart), Weather API*

- Weatherly is a Weather forecast app that provides real time weather updates.
- Integrated WeatherAPI for weather data retrieval and user location input for location-based weather details.
